

TRANSFORM YOUR BRIX APP INTO A TRUE ENGAGEMENT TOOL

Is your BRIX application remaining silent when it could energize your community?

87% of employees feel that their employer doesn't communicate effectively with them, and 74% feel excluded from news and important information. Your silent BRIX app contributes to this disconnect: your employees check the application less frequently, miss crucial information, and lose their engagement. Between your daily responsibilities and content management, it's impossible to maintain the necessary engagement.

Our offer

Imagine your BRIX app transformed: notifications that capture attention, news that sparks discussions, events that mobilize your community. Our specialized writing team takes charge of your content strategy from A to Z:

- Personalized editorial planning
- Writing engaging news content
- Optimizing your events
- Performance monitoring and adjustments

Transform the potential of your BRIX app today. Contact us for a consultation on your content strategy and discover how to multiply your users' engagement.

PARKOUR3

AGENCY

Since **2002**, we have been supporting our clients daily in website development, digital campaign management, and marketing automation. With **over 35 HubSpot certifications** under our belt, we are one of the most certified agencies in Canada and the only agency in Canada to hold the Advanced CMS Implementation certification.

Our offices are located in **Montreal**, but our services cross borders! Several grants are available to you, but your return on investment amply justifies your investment. To accelerate your growth, we help you get the most out of the HubSpot software solution.
